## TO ALL BRITISH DIETETIC ASSOCIATION MEMBERS!

### Manual of Dietetic Practice

FOURTH EDITION

Published in conjunction with the **British Dietetic Association**

Edited by **Briony Thomas** and **Jacki Bishop**

The standard work for all those involved in the field of clinical nutrition and dietetics, the *Manual of Dietetic Practice* has been equipping healthcare professionals with the essential foundations on which to build expertise and specialist skill since it was first published in 1988.

The fourth edition responds to the changing demand for multidisciplinary, patient-centred, evidence-based practice and has been expanded to include dedicated chapters covering adult nutrition, freelance dietetics, complementary and alternative therapies.

Compiled from the knowledge of both individual experts and the British Dietetic Association's Specialist Groups, this truly is the essential guide to the principles of dietetics across its whole range.

#### Contents

**Section 1:** General dietetic principles and practice

**Section 2:** Foods and nutrients

**Section 3:** Nutritional needs of population subgroups

### Clinical Paediatric Dietetics

THIRD EDITION

Edited by **Vanessa Shaw**, Great Ormond Street Hospital for Children and **Margaret Lawson**, Institute of Child Health

This standard work has been comprehensively revised and expanded to meet the needs of the modern practising and student dietitian.

In tune with current trends, a greater emphasis has been placed on public health issues such as the treatment of childhood nutritional disorders in the community, including obesity and faltering growth. The book now also contains a dedicated chapter on the important issue of allergy prevention.

With worked examples of dietary management given throughout, *Clinical Paediatric Dietetics* is an indispensable guide for all those involved in the nutritional treatment of children.

- Edited by leading experts at Great Ormond Street and the Institute of Child Health
- Officially supported by the British Dietetic Association
- Written for dietitians, by dietitians
