

## Poster submission

We are delighted to confirm that we are inviting abstracts, to be displayed as posters during BDA Live.

Posters are an important way of spreading new ideas and research in the profession and building on our research aspirations for the profession.

Dietitians have the knowledge and passion to change the lives of patients – we need to highlight the work of the dietetic workforce.

There are no restrictions on theme, the objective is to promote the great work ongoing in the dietetic profession.

We are inviting existing or new posters to be on display over the two days, to share best practice and highlight the worth of dietetics.

### Where will my poster be?

Posters can be displayed over the two days of BDA Live 2018

All posters displayed will be available to view on the website for 3 months after the event.

### How should I format my poster?

The abstract/poster should include introduction/aim, methodology, results/discussion and conclusion. Further guidance on poster design is available, please refer to poster guidance.

### How do I submit a poster?

You should upload either your abstract or poster design, via the online booking system when booking your place. Should your poster be rejected you are able to cancel your registration without charge. [Book your place today](#)

### How will my poster be displayed?

Posters will be mounted onto boards, you will need to bring your poster with you to BDA Live. Velcro will be provided and assistance available if required.
